Diagnose Disease

(github link : https://github.com/nizar-sys/sistem-diagnosa-penyakit)

Kami telah menciptakan sebuah situs web yang memungkinkan pembuatan CV secara otomatis. Situs ini sangat bermanfaat bagi para pencari kerja karena membantu mereka dalam menyusun CV dengan cepat dan efisien. Cukup dengan menyediakan beberapa informasi, CV akan dibuat secara otomatis dengan tampilan yang menarik!

"Where Code Meets Flavor, Innovation is Served"

~Codeplatery~

About Codeplatery

Codeplatery is an innovative software house that brings a unique touch to the world of software development. Just like a skilled chef crafting delightful dishes, we blend creativity, expertise, and dedication to produce software solutions that captivate. At Codeplatery, every line of code we write comes with an exceptional flavor, stimulating the appetite for endless technological innovation. With us, you'll discover an unforgettable software development experience, where every project is a digital culinary adventure that leaves a lasting impression. Welcome to Codeplatery, where sophistication meets creativity, and innovation merges with beauty.
